

How to Write a Product Review

First of all, welcome to our team! Hope we can go far together!

Let's start your new challenge!

Part 1: Introduction

You will be given a list of keywords in excel file like this:

meilleure balance impédancemètre	https://www.amazon.fr/Aicok-Impédancemètre-Corporelle-Plate-forme-Musculaire/dp/B07BDK2TCQ/ https://www.amazon.fr/Impédancemètre-RENPHO-Pèse-Personne-Musculaire-Rétroéclairé/dp/B01N1UX8RW/ https://www.amazon.fr/Tanita-BC-730PWH-Balance-Impédancemètre-Mesures/dp/B005WU8WQW/ https://www.amazon.fr/Beurer-BF-700-Pèse-Personne-Impédancemètre/dp/B00NABOIEK/ https://www.amazon.fr/OMRON-Balance-Impédancemètre-Connectée-Bluetooth/dp/B07CLRK7Y8/
----------------------------------	---

Main keyword: “**Meilleure balance impédancemètre**”

You will need to do research about this product on the Internet and analyze its features, and related details. Then write a short introduction for this product (remember: as short as possible, about 5 sentences)

Pls read this web <http://mesreviews.com/> as reference.

Part 2: Top Products

You will be given a list of top product links (You don't need to find top products on Amazon; everything is provided in details by us). You just need to check each product link, read information, and summarize pros and cons of the product (its advantages should be emphasized/highlighted). Obviously, the technical information of the product cannot be changed. You can keep them intact. You just need to paraphrase or rewrite in your writing style as long as the main ideas/points of products won't be changed, but make sure the content is unique.

In the conclusion of each specific product, you should have one sentence that describes its target on buyers. For example:

- Oppo, a kind of popular smartphone, is suitable for those who like to selfie.
- If you're a fan of modern technology or if you are looking for a tool that supports your business, Iphone is the best choice for you.

Part 3: Conclusion

You just need to conclude the main points mentioned above in general suggestion. The products should fit buyers who have suitable budgets, needs, and favorites.
