

To Help you Better Serve Your Customers To Help you Better Serve Your Customers

In today's world, every business needs an app to survive and [BOTTLECAPPS](#) has the app that will help push your store past survive and straight to thrive.

ADMIN APP

Allows the store owner to view daily sales figures by type of product and basket size, buying trends, and product preferences that ultimately show store owners how to best stock and price their items. Our Admin App also allows you to process platform orders while on-the-go.

APP CONTENT MANAGEMENT SYSTEM

Easily send Push notifications, create Coupons for your customers, schedule Events, or set up online Deals with a few simple clicks from your desktop or mobile device. This product extension puts the power of marketing your business in the palm of your hand.

THE WEBCONSOLE

Our webconsole will help you maintain unified communications with accounts on a customized CRM platform and gather new information on potential clients. This feature is integrated with our apps and

websites and gives you the ability to send notifications, create events and tastings, and generate reports all from one centralized backend.

WEB CONSOLE TRAINING

With [BottleCapps](#), your assigned Client Services Manager will train you on each element of the backend console, ensuring that you and your staff have the understanding and power to do whatever you need to when it comes to managing your online business.
